

GEORGIA MINING FOUNDATION 2027 SCHOLARSHIP PROGRAM CONTRIBUTION FORM

This is the 40th year the Georgia Mining Foundation Scholarship Program will award scholarships to students in Georgia high schools and Georgia technical colleges. GMF believes that the students of today will be the leaders of tomorrow – and it is important they get the education they deserve. Our scholarship programs rely on contributions to continue our good work of helping students retain their educational goals. We hope to have excellent participation from our mining, strategic and associate members to make our scholarship programs successful.

If you or your company is interested in participating in the 2027 GMF scholarship program, please indicate how many scholarships you wish to fund, which scholarship programs you'd like to participate in, and in which areas or schools you'd like to see your scholarships awarded. Return your completed contribution form along with payment to the Foundation office by **October 30, 2026**. Contribution forms must be received by the October 30th deadline to ensure scholarship information packets are sent to the participating schools in a timely manner.

With your assistance and commitment, the Foundation will be able to award more than seventy high school and technical college scholarships in April 2027. Deadlines for student applications will be in March 2027.
